

## Pedestal and wall fans

### Pedestal and Wall fans - Commercial / Industrial

Pedestal and Wall Fans are a cost effective and efficient method of rapidly cooling people, machinery and work areas. Suitable for use in domestic and commercial applications where larger air volumes are required.

#### General Specifications

- ◆ Heavy duty construction featuring high efficiency blades with high quality chrome plated finger guards.
- ◆ Powerful 3 speed, 240 volt / single phase / 50 Hz electric motor.
- ◆ 0-90° controllable oscillation mode and adjustable tilt of 15° downwards and 60° upwards (on pedestal model), allows for cool air to be delivered to areas of most need or to broad sweep, covering 90° by approximately 15m.
- ◆ Sturdy cast iron base ensures excellent fan stability for the pedestal model (base designs may vary)
- ◆ 12 Months Warranty.

#### Range of duties

Up to 2,600 - 3,300 L/s free air.

#### Note

Supplied in kit form ready for assembly.

Fan Speed	Max. Flow L/s	Sound level, dB(A) @ 3m	Fan Speed RPM	Motor Protection	Power, W	Current, A	Voltage
<b>High</b>	3350	68	1375	IPX4	170	0.8	240
<b>Medium</b>	3000	59	1265	IPX4	150	0.6	240
<b>Low</b>	2600	55	1135	IPX4	130	0.55	240
