

# BEC 150HP

## BEC 150HP Bathroom Extractor Centrifugal

The **BEC 150HP** bathroom fan has one of the highest extraction rates on the market, is quiet, and has a very modern low profile.

### Construction

The fans are fitted with forward curved centrifugal impellers driven by high-quality motors with sealed for life bearings. Cases and grilles are made from injection moulded polymer.

### Features

- Can be used ducted or unducted
- Fits into tight spaces
- Low noise levels
- High efficiency forward curved impellers
- ROT (run-on-timer) available  
BEC 150HP ROT
- Cutout template and installation instructions included
- 295mm cut out hole matches many existing fans for easy replacement

### Tested

- In accordance with ISO 5801:2017 for airflow rating
- In accordance with ISO 3741:2010 for sound data

### Wiring

- Fans are fitted with a flex lead and plug.

Model	BEC 150
Frequency [Hz]	50
Voltage [V]	220-240
Fan power [W]	57
RPM	1085
Fan current @ 230 V	0.25
Max. airflow [m <sup>3</sup> /h] (l/s)	482 (134)
SFP	0.43
Sound pressure level LpA @ 3 m	36
IP rating	IPX4
